

# EziView

## What is EziView?

EziView is an easy to use, yet powerful end user data entry, reporting and graphing tool. It facilitates the creation of custom data grids to attach to any table or view in any database. It has been built to be easily configurable and manageable by end-users.

## Features:

- » Simultaneously connect to and report from, multiple databases or sources
- » Add and edit data from the grid
- » Add and save grid grouping and filters
- » Print WYSIWYG (What You See IS What You Get) Reports
- » Create and save graphs with the ability to re-sort data and reprint
- » Launch EziView grids from other grids, applications or shortcuts
- » Create your own custom fields within the grids. This may be as simple as adding two fields together, or a complex mathematical or SQL based calculation
- » Import and export grid layouts
- » Additional conditional formatting based on the grid data
- » Create grid pivot tables for fast flexible reporting
- » All grids, charts and reports exportable to common file formats
